Make a Difference

Family Lifetime Activity

Families who sled together continue to sled together for generations. Joining your local club gives you access to family activities.

Community & Giving Back

As a designated trail rider, you can get involved with your local club, help plan and promote the trail system, and take part in club activities. Across Manitoba, the snowmobile community also gives back, raising more than \$500,000 each year for charitable causes through rallies, derbies, and other events.

Environment

Our 53 clubs are committed to environmental sustainability. Snowmobiling occurs when a blanket of snow protects the ground, thereby minimizing its impact on the plants and earth. We embrace eco-friendly policies such as recycling and adopting new technologies. Snoman was honoured at the 2014 Manitoba Excellence in Sustainability Award for Champions of the Environment.

Tired?

Our shelters are the ideal place for a rest stop, a wiener roast, a hot drink and a warm up. You might even run into old friends, or make some new ones.

Let Us Guide You

Our trail system is clearly mapped; Snoman's website has an interactive map and there's also the Mapgears App.

Economic Stability

Many businesses in rural Manitoba rely on the snowmobile industry to help sustain their services throughout the winter. The industry has an economic benefit to the provincial economy of more than \$300 million per year (2013 Probe Research Economic Impact Study).

Ride Safe & Don't Get Caught

The designated, signed trail system provides a safer way to ride by protecting riders, snowmobiles and property while improving travel between regions. Stay safe and reduce your trespassing risk on private property as our clubs have agreements in place with landowners for the trail system.

Exploring the World Around You

We provide winter travel links between communities throughout rural Manitoba, even into neighboring provinces and states. Due to our reciprocity agreement, Manitoba Snopass holders have access to Saskatchewan trails, which total approximately 10,000 kms.

Snopass

In the 2023-2024 season, there were 22,154 sleds with Snopasses, as compared to 37,901 registered sleds. This illustrates that more snowmobilers need to be purchasing Snopasses to access the trails.

The Fee Plus Savings

A Snopass costs just \$150/year compared with a \$486 fine for illegally riding Snoman trails; saving you \$336 while giving you access to more than 13,000 km of well-groomed trails for a safer riding experience.

Part of the Solution

By purchasing a Snopass, you can proudly say that you are part of the solution as you are helping with the costs of maintenance and grooming of snowmobile trails in Manitoba.
